

colloquium organizer, **Contacts**, **Holidays in the Netherlands**

Mon 10 Jan 2011

15:30

Jorge Peñarrubia (IoA, Cambridge): Testing the Cold Dark Matter paradigm with dwarf spheroidal galaxies

Mon 17 Jan 2011

15:30

Johan Knapen (IAC): Thick disks in the Spitzer survey of stellar structure in galaxies

Where: ZG161

Thu 20 Jan 2011

15:30

Claudio Llinares (Kapteyn/AIP/Torino): On the linear and non-linear cosmological evolution of dust density perturbations with MOND

Where: ZG161

Mon 24 Jan 2011

15:30 Chris Ormel (MPIA): Adventures in Planet Formation

Where: ZG161

Mon 31 Jan 2011

15:30

Russell Smith (Durham U.): Environment, quenching and the emergence of the faint red sequence in galaxy clusters

Where: ZG 161

Mon 7 Feb 2011

15:30

Nadine Wehres (Leiden): Optical Spectroscopy of Interstellar and Circumstellar Molecules - a combined laboratory and observational study

Where: ZG161

Mon 14 Feb 2011

15:30

Chris Done (Durham): Making physical sense of the properties of X-ray binaries

Where: ZG161

Thu 17 Feb 2011

16:00 Bernard Jones (Kapteyn): Computational Geometry in (Astro)Physics

Where: FWN-Building 5111.0080, Nijenborgh 4

Mon 21 Feb 2011

15:30

POSTPONED! Giuliana Fiorentino (Bologna): Variable stars as key-tools to constrain distances and stellar content in Dwarf Galaxies

Where: ZG161

colloquium organizer, **Contacts**, **Holidays in the Netherlands**

Mon 7 Mar 2011

15:30

Christopher Martin (Caltech/NOVA Speaker): UV tracers of the Hidden Side of Galaxy Evolution

Where: ZG161

Wed 9 Mar 2011

15:30

Francisco Kitaura (MPA): Non-Gaussian Analysis of the Large-Scale Structure

Where: ZG 161

Mon 14 Mar 2011

15:30

Piergiorgio Casella (University of Southampton): Beyond X-ray timing: fast multi-wavelength variability from jets in X-ray binaries

Where: ZG161

Mon 21 Mar 2011

15:30

Giuseppe Bertin (Milano): Simple physical models and the distribution of dark matter in spiral galaxies

Where: ZG161

Mon 28 Mar 2011

15:30

Misato Fukagawa (Osaka): Direct imaging of protoplanetary disks in scattered light

Where: ZG161

Thu 31 Mar 2011

16:00

Alessandro Morbidelli (Observatoire de la Côte d'Azur): Formation and evolution of our solar system: some hints for understanding the great diversity of extra-solar systems

Where: lecture hall 11.80, Nijenborg 4

Mon 4 Apr 2011

15:30

Matthew Kenworthy (Leiden U.): Direct Imaging of Extrasolar Planets in the Thermal Infrared

Where: ZG161

Mon 11 Apr 2011

15:30 Michael Garrett (ASTRON): Unraveling the Nature of Hanny's Voorwerp

Where: ZG 161

colloquium organizer, **Contacts**, **Holidays in the Netherlands**

Mon 18 Apr 2011

15:30

Rychard Bouwens (Leiden): Galaxy Build-up and Evolution at $z \geq 7$ - Early results from ultra-deep WFC3/IR observations over the HUDF and GOODS fields

Where: ZG161

Tue 3 May 2011

15:30

David Alexander (Durham U.): Tracing the Growth of Black Holes in the Distant Universe

Where: ZG 161

Mon 9 May 2011

15:30

Matthijs van der Wiel (Kapteyn): The mutual dependence between warm gas and massive protostars

Where: ZG 161

Wed 11 May 2011

12:30 Antonela Monachesi (Kapteyn): The Resolved Stellar Populations of M32

Where: ZG161

Tue 17 May 2011

16:00

Gary Fuller (Manchester): Peering into the Dark: Probing the Initial Conditions for the Formation of Stellar Clusters

Where: ZG161

Tue 24 May 2011

15:30

Rashid Sunyaev (MPA): The richness and beauty of the physics of cosmological recombination

Where: collegezaal 151 in the Bernoulliborg

Thu 26 May 2011

16:00 Alexander Tielens (Leiden): Astromaterial Sciences

Where: lecture hall 11.80, Nijenborg 4

Fri 27 May 2011

15:00

Paul Kalas (UC Berkeley): HST Imaging of Fomalhaut: Direct detection of an exosolar planet and Kuiper Belt around a nearby star

Where: ZG161

Mon 6 Jun 2011

15:30 Anna Watts (Amsterdam): Particle physics at parsecs

Where: ZG161

colloquium organizer, **Contacts**, **Holidays in the Netherlands**

Mon 20 Jun 2011

15:30

Jacqueline van Gorkom (Columbia U/Kapteyn): Gas and galaxy evolution: from voids to clusters

Where: ZG161

Mon 27 Jun 2011

15:30

Renée Kraan-Korteweg (U Cape Town/Kapteyn): A mass estimate of the great-wall like structure of the Great Attractor?

Where: ZG161

Mon 5 Sep 2011

16:00 Opening Academic Year

Where: Academy Building, broerstraat 5

Mon 12 Sep 2011

16:00 FMNS Spotlight Colloquium

Where: room 5161.0151, Bernoulliborg, 9747, Groningen

Tue 13 Sep 2011

12:30

Muhammedabdul Latif (Kapteyn Institute): Cosmological Simulations of the First Galaxies

Where: ZG 161

Mon 19 Sep 2011

15:30

Elmar Koerding (Nijmegen): X-ray binaries: Miniature scale models of quasars?

Where: ZG 161

Mon 26 Sep 2011

15:30

Simon Portegies Zwart (Sterrewacht Leiden): Multiphysics simulations of gas-rich star clusters

Where: ZG 161

Mon 3 Oct 2011

15:30 Olaf Scholten (KVI): Lunar neutrino detection

Where: ZG 161

Mon 10 Oct 2011

16:00 FMNS Spotlight Colloquium

Where: room 5161.0151, Bernoulliborg, 9747, Groningen

colloquium organizer, **Contacts**, **Holidays in the Netherlands**

Mon 17 Oct 2011

15:30

Michael Müller (SRON / LEA): Hot or not: small bodies throughout the solar system as seen by Spitzer, Herschel, and SPICA

Where: ZG 161

Mon 24 Oct 2011

15:30 Francoise Combes (Observatoire de Paris): Secular evolution of galaxies

Where: ZG 161

Wed 26 Oct 2011

12:30

Guido van der Wolk (Kapteyn Institute): Mid infrared imaging of dust in galaxies

Where: ZG 161

Tue 1 Nov 2011

15:30

Seth Shostak (SETI Institute): New Approaches to the Search for Extraterrestrial Intelligence

Where: Kapteynborg 161

Mon 7 Nov 2011

15:30

Francesca Bacciotti (INAF-Osservatorio Astrofisico di Arcetri): "Jets from young stars: current achievements and research perspectives"

Wed 9 Nov 2011

15:30

Jocelyn Bell Burnell (Oxford University): "Reflections on the discovery of pulsars"

Where: room 5161.0151, Bernoulliborg, 9747 Groningen

Mon 14 Nov 2011

16:00 FMNS Spotlight Colloquium

Where: room 5161.0151, Bernoulliborg, 9747, Groningen

Wed 16 Nov 2011

12:30

Seyit Hocuk (Kapteyn Institute): Origin of Stars: "The IMF in Extreme Environments"

Where: Kapteynborg 161

Mon 21 Nov 2011

12:30

Thomas Martinsson (Kapteyn Institute): "The Distribution of Mass within Spiral Galaxies: Unique Solutions from Gas and Stellar Kinematics"

Where: Kapteynborg 161

colloquium organizer, **Contacts**, **Holidays in the Netherlands**

16:00 Thesis Defense Seyit Hocuk

| **Where:** Aula, Broerstraat 5, Groningen

Wed 23 Nov 2011

12:30

| **Padelis Papadopoulos (MPIfR, Bonn): "A cosmic-ray-dominated ISM in extreme starbursts: new initial conditions for star formation in the Universe"**

| **Where:** Kapteynborg 161

Mon 28 Nov 2011

15:30

| **Avery Meiksin (Royal Edinburgh Observatory): "Detecting the inhomogeneous IGM during the Epoch of Reionization"**

| **Where:** Kapteynborg 161

Mon 5 Dec 2011

15:30

| **Marianne Vestergaard (Niels Bohr Institute, Copenhagen): "Measuring Black Hole Masses and Distances using Quasars"**

| **Where:** Kapteynborg 161

Wed 7 Dec 2011

12:30

| **Else Starkenburg (Kapteyn Institute): "Galactic archaeology in and around the Milky Way"**

| **Where:** Kapteynborg 161

Fri 9 Dec 2011

11:00 Thesis Defense Else Starkenburg

| **Where:** Aula, Broerstraat 5

Mon 12 Dec 2011

16:00 FMNS Spotlight Colloquium

| **Where:** room 5161.0151, Bernoulliborg, 9747, Groningen

16:00 Thesis Defense Thomas Martinsson

| **Where:** Aula, Broerstraat 5

Tue 13 Dec 2011

15:30 Charlie Conroy (Harvard): "Measuring the IMF in distant galaxies"

| **Where:** Kapteynborg 161

Thu 15 Dec 2011

16:00

| **Physics colloquium Peter Barthel (Kapteyn Institute): "Santa and the Moon"**

| **Where:** Nijenborgh 4: 51.11.0080
