

**Monday, 11 January 2016**

4:00pm

Colloquium: Faculty Spotlight

**Monday, 18 January 2016**

3:30pm

Colloquium Natalie Gosnell (Texas): The Story of 'Strange' Binaries: Blue Straggler Stars in Open Clusters

**Monday, 25 January 2016**

3:30pm

Colloquium Pedro Russo (Leiden): Global Programmes in Astronomy Education and Public Outreach

**Monday, 1 February 2016**

3:30pm

Colloquium Dr. Siebren vdWurf: "Solar ephemerides and declination tables of the fifteenth and sixteenth century"

**Monday, 8 February 2016**

4:00pm

Colloquium: Faculty Spotlight

**Tuesday, 9 February 2016**

12:45pm

Thesis colloquium Robert Huisman (SRON)

**Monday, 15 February 2016**

3:30pm

Colloquium Benne Holwerda (Leiden): STarlight Absorption & Reddening Survey of Occulting Galaxies (STARSMOG)

**Friday, 19 February 2016**

12:30pm

Lunch colloquium Sarah Martell: The GALAH Survey and Galactic archaeology

**Monday, 22 February 2016**

3:30pm

Colloquium Floris van der Tak (SRON/Kapteyn): The 2016 view on star formation

**Wednesday, 24 February 2016**

12:30pm

Thesis Colloquium Stefano Antonelli

**Monday, 29 February 2016**

3:30pm

Colloquium Alessio Mucciarelli (Univ. of Bologna): Spurious and real iron spreads in globular clusters

**Wednesday, 2 March 2016**

12:30pm

Lunch Colloquium Keith Hawkins (IoA, Cambridge): Piecing together the Milky Way

**Monday, 14 March 2016**

4:00pm

Colloquium: Faculty Spotlight

**Wednesday, 16 March 2016**

3:30pm

Colloquium Elmo Tempel (Tartu): Large-scale structure of the Universe: observer's point of view

**Monday, 21 March 2016**

NOVA brainstorm

**Tuesday, 22 March 2016**

3:30pm

Coll Miguel Aragon Calvo (UC Riverside)

**Wednesday, 30 March 2016**

12:30pm

Lunch colloquium Andy Bunker (Oxford)

**Monday, 4 April 2016**

3:30pm

Colloquium I. Trujillo

**Wednesday, 13 April 2016**

12:45pm

Thesis colloquium Asa Skuladottir

**Friday, 15 April 2016**

3:00pm

Colloquium Tim Beers (University of Notre Dame): "Chronography of the Milky Way's Halo System with Field Blue Horizontal-Branch Stars"

**Monday, 18 April 2016**

3:30pm

Colloquium Eros Vanzella (Bologna): "And there was (ionizing) light: ancient clues to reionization"

**Monday, 25 April 2016**

3:30pm

Colloquium Mark Sargent (Sussex): "Starbursts, normal galaxies and the molecular gas history of the Universe"

**Monday, 2 May 2016**

3:30pm

Colloquium Selma de Mink (UvA): "The Incredible Lives and Afterlives of Massive (Binary) Stars"

**Monday, 9 May 2016**

4:00pm

Colloquium: Faculty Spotlight

**Wednesday, 11 May 2016**

12:45pm

Lunch colloquium Almudena Alonso Herrero

**Wednesday, 1 June 2016**

12:45pm

Lunch colloquium Lingyu Wang (SRON/Kapteyn): "Star formation rates and luminosity functions in the low-redshift Universe"

**Monday, 6 June 2016**

3:30pm

Colloquium Eli Waxman (Weizmann Inst. Israel): "High energy neutrino astronomy: What have we learned?"

**Monday, 13 June 2016**

3:30pm

Colloquium Volker Ossenkopf (Cologne): "GREAT science from SOFIA"

**Monday, 20 June 2016**

3:30pm

Colloquium Matteo Guainazzi (ESAC): Blowing in the wind

**Monday, 27 June 2016**

3:30pm

Colloquium Ivo Labbe (Leiden): Galaxy Formation in the First 2 Billion Years

**Monday, 29 August 2016**

3:30pm

Colloquium prof. Ron Allen (STScI, Baltimore)

**Wednesday, 31 August 2016**

Huug90 Fest

**Monday, 5 September 2016**

Start of Academic Year 2016-17

**Monday, 12 September 2016**

4:00pm

First colloquium 2016/17: FWN Spotlight

**Monday, 19 September 2016**

3:30pm

Colloquium Dr. Paul Wesselius: "ANS @40"

**Monday, 26 September 2016**

3:30pm

Colloquium Jeroen Stil (Calgary): "Magnetic Fields in a nearby Intermediate-Velocity filament in the First Galactic Quadrant"

**Monday, 3 October 2016**

3:30pm

Colloquium Pratika Dayal: "The first billion years of galaxy formation"

**Monday, 10 October 2016**

12:45pm

Thesis colloquium Caroline van Borm

4:00pm

FWN Spotlight Colloquium; prof. Marc Verheijen

**Wednesday, 12 October 2016**

12:45pm

Thesis colloquium Pece Podigachoski

**Tuesday, 18 October 2016**

3:30pm

Colloquium Blaauw Prof. Rosie Wyse "The Structure and Substructure of the Disks and Halo of the Milky Way Galaxy"

**Wednesday, 19 October 2016**

12:45pm

Thesis colloquium Wouter Karman

**Thursday, 20 October 2016**

3:30pm

Mini Symposium: Olivier Le Fevre and Piero Rosati

**Monday, 31 October 2016**

3:30pm

Colloquium Dr. Mark Booth "Resolving Debris Discs with ALMA"

**Monday, 7 November 2016**

3:30pm

Colloquium Dr. Inge Loes ten Kate (Utrecht) "Prebiotic organic chemistry in cosmic dust: synthesis, preservation and degradation."

**Monday, 14 November 2016**

4:00pm

FWN Spotlight Colloquium

**Monday, 21 November 2016**

3:30pm

Colloquium Alan Harris (DLR Berlin): "Asteroids: their physical properties and why they matter"

**Monday, 28 November 2016**

3:30pm

Colloquium Jackie Hodge (Leiden)

**Monday, 5 December 2016**

3:30pm

Colloquium Francisco Kitaura (IAC, Tenerife): "Big Data of the Cosmic Web"

**Monday, 12 December 2016**

3:30pm

Kapteyn Colloquium Dr. Ignacio Martin-Navarro (UCO Santa Cruz)
